

Blast chilling and freezing are the best natural processes to extend the life of food. This freezers created to improve the quality and organization of work, in restaurants, pastry shops, bakeries and ice cream parlors.

## BLAST FREEZERS

The well designed, practical form makes it extremely easy to find a space in your bakery. Its operating mechanisms and robust construction guarantee a long working life.

### V5-20

<b>Capacity</b>	5 tray 600 x400mm or 5 x GN1/1
<b>Tray pitch</b>	68mm
<b>Voltage</b>	230V/1ph/50Hz
<b>Dimensions : Width (mm)</b>	840
<b>: Depth (mm)</b>	770
<b>: Height (mm)</b>	900
<b>Blast chilling capacity</b>	20kg in 90min. (+90 to 3°C)
<b>Shock chilling capacity</b>	12 kg in 240min. (+90 to- 18°C)
<b>Power</b>	2262W

## BLAST CHILLER / FREEZER

The MT Series of blast freezer are designed to allow uniform, efficient freezing. The core temperature probe monitors the temperature at the product core. Most suitable for fast freezing dough pcs, cream cakes etc. High humidity of 90% during freezing cycle.

## CONSERVATION REFRIGERATOR FREEZER

Modular storage cabinet range Tecnocel, thanks to the particular air system flow adopted, guarantees a perfect storage in terms of quality and freshness of raw materials, semi-finished products and finished products, in the total respect of hygienic- sanitary low and HACCP, contributing to the improvement of the working activity organization inside the craft workshops.
