The baking chamber is set to modern standard; features an advanced design and is executed in stainless steel. External finish with an attractive powder-coated housing. 整个烘焙室都是不锈钢制造，里面的零部件采用了最先进技术研制而成，再配合高档的磨砂/金属外壳，使得整台炉既耐用又美观。

Our Pizza Oven was thoroughly designed with the expertise of China's "Pizza Champion" Miguel from Dongguan and manufactured to meet the requirement of restaurant operators.
我们的比萨炉是参考来自东莞的“中国比萨比赛冠军” - Miguel 先生的专业意见，为了满足餐馆运作需要而研制的。

Exclusive hearth stones (Bakers Tiles) are used in our Pizza Ovens. These tiles are pressed at 8,000 PSI and Kiln fired at high temperature which creates a hard and extremely durable tile. 我们为比萨炉配置了特制的石板作为炉膛，这种石板是在高达 8000PSI 的压力下经高温陶瓷化而成，因此更加坚固和耐用，并实现最佳的烘焙效果。

Both, the body piece and the hearth stone tiles are cast and assembled individually. This allows the ovens to be serviceable thus extending their life. Insulation method optimizes the heat storage capacity of the units making them very efficient and eliminates temperature fluctuations. A sight glass allows access to visibility to food without any noticeable heat loss.

烤身和石板都是独立组装的，方便今后的维护工作从而有效延长烤炉的使用年限。其绝缘设置能有效地存储热能，从而提高能耗效率及减少温度波动。炉门上的透明玻璃，可以清楚地观察食品的烘烤过程，减少能耗。
