

Kolbcoffee
Creating Experience

ONE STOP BEVERAGES SOLUTIONS

Kolb Coffee, a member of Kolb Hong Kong, was founded in 1986. We source only premium grade coffee beans from the best growing regions around the world including Brazil, Colombia, Kenya, Ethiopia and other major Central American and East African countries. Each single batch is roasted freshly by professional roasters and applies consistent quality control points to ensure optimum flavors and freshness from seed to cup.

Kolb is proud to be a premier supplier in Hong Kong to serve well-known eateries, hotels, restaurants, coffee shops, clubhouses, offices and discerning individuals for one stop coffee solutions including roasted beans, filter coffee, pod, capsule, as well as world class coffee equipment with prompt technical support and delivery.

At Kolb Coffee, your individual need is the challenge we love. Our team of barista trainers and service technicians are dedicated and ready to prepare your distinct signature drinks.

FREE COFFEE TASTING

Café style coffee for your guests and staff

Kolb Coffee offers exclusive benefits to serve café style coffee to your valuable guests, clients and staff in the most convenient way.

Our benefits include various selections of premium coffee beans (roasted in Switzerland and Italy) with free delivery service, supply of fully-automatic coffee machines including professional technical support, set-up, training and monthly on site maintenance. Our customized one-stop coffee solution fits your different needs

Coffee bean

FRUITS MARKET

City Roast
★★★★★

Origin from Brazil, Colombia, Guatemala

Tasting notes: Tropical fruits, berries, citrus notes

Coffee bean

500g x 12 packs per carton

Rocky Road, a popular venue for photo shoots and movie scenesis. It is one of the oldest street covered with cobblestone drop sharply to Queen's Road Central, filled with sense of Britian colonial culture. Let's try out the coffee and travel back in time, shall we?

Yau Ma Tei Fruit Market, a listed as Grade II historic building found in 1913 by a food trader. It's a good place to walk through history and feel the sentiment of old Hong Kong. Can you imagine while the coffee is infused with Japanese peaches, Thailand mango and Taiwanese pineapple? Yea? Juicy and fruity!

ROAST REVOLUTION

A micro coffee roastery by coffee lovers whom are committed to the creation of coffee blends that uniquely belong to Hong Kong. We source the best harvested beans from around the world and select carefully the perfect ones, roasted freshly to ensure quality and freshness.

Suitable for hand drip, cold brew, syphon and aeropress

*Selections may vary depending on seasonal harvests

CIRCO
brewer

Sprso

- Incorporates professional CIRCO brewer
- Made from high quality stainless steel & BPA-free plastics
- Automatic rinse and cleaning program
- Extremely low energy consumption in standby <0.5W
- The CIRCO brewer is NSF certified, meaning that it meets public health and environmental safety standards

Sego espresso machine is fully automatic. Specialty coffees are made using freshly ground coffee beans. Easy to use, by intuitive touch-screen. Fresh milk or milk powder is also possible. Sego L even makes milky coffees, like a Cappuccino, with fresh milk foam. Thanks to its compact format and simple operation, the Sego is a popular coffee machine for the office. A nice extra: if the Sego hasn't been used for some while it automatically switches into energy-saving mode.

Saeco Perfetto is a stylish and affordable, yet heavy duty and reliable machine which will deliver all day long. Designed for foodservice professionals, the Perfetta Tall Cup is ideal to prepare “take away” espresso beverages as the filter holders can accommodate cups up to 13 cm tall. This heavy-duty machine combines many features to make an extremely versatile coffee machine. Features one steam wand, a hot water dispenser, two group heads for up to 4 coffees at once, programmable automatic coffee measurement and a movable stand for smaller cups. Large heavy-duty touch-sensitive keypads facilitate the barista’s work. The stainless steel wire drip tray ensures the serving cups are always clean. These built-to-last machines have no plastic in their body panels.

An Italian coffee machine, the best orchestra
High Quality professional and traditional espresso coffee machines single copper boiler with thermosyphonic supply system with E61 groups. Today more than ever we are sure that the artigianal production of traditional machines has been the right philosophy as a single boiler machine conceived with the right skills will perform (extraction and steam) as well as multi boiler machines or richer in electronic content but more stable, reliable, easier to use and less demanding as far as maintenance is concerned.

Radiofonica is inspired by the radio orchestra (orchestra radiofonica) born almost a century ago, that allowed many people to be able to listen the real orchestras that previously could not attend. With the same spirit Radiofonica is born as a traditional machine that wants to give an easier and simpler opportunity to even more people all around the World to enjoy a good and traditional coffee extraction.
