

VC999 P SERIES

The P-Series is designed to the highest standards of cleanliness. The P-frame construction is a modular, flexible, and highly customizable concept to accommodate current & future production requirements. Independent form & seal scissor-action p-lift construction is rugged for work and precise for perfection.

Lubrication-free composite IGUS bearings. Cutting/Pinch-point guard design for employee safety & product perfection.

TECHNICAL FEATURES

Standard Machine Widths	p285/p320/p355/p420/p520/p560/p620/p720
Max. Index Length (mm)	Up to 650 (with preheating 500 max)
Loading Length (mm)	500 min - 1000/1500/2000/2500 - 5000 (no max)
Discharge Length (mm)	750 min - 1500/2250/3000/3750 (no max)
Draw Depth (mm)	100/135/185
Forming Width of Top Web (mm)	288/323/358/423/462/523/563/623/723
Tolerance (mm)	+/- 1
Film Roll Diameter (mm)	400 (standard) / 800-1500 (Jumbo)
Roll Core	76 mm/ 3"(standard); Adapter for 152 mm / 6' available
Power Supply (V)	220/400/460V , 3 ph, 50/60Hz
Compressed Air	min. 7 bar (850 l/min.)
