DOSING FILLING MACHINE

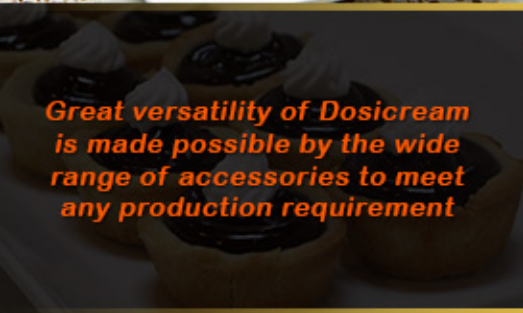

Voltage : 110/240V
Wattage : 0.18Kw
Weight : 27kg
Dimensions : 450 x 300 x 330H (mm)
450 x 300 x 630H (mm) (8.5lt.)
450 x 300 x 730H (mm) (13lt.)

Voltage : 110/240V
Wattage : 0.54Kw
Weight : 69kg
Dimensions : 760 x 430 x 300H (mm)
760 x 430 x 650H (mm) (8.5lt.)

Speedup the dosage by injection for products such as cannoli, croissants, bagels, fritters, donuts with cream, jam and chocolate

Great versatility of Dosicream is made possible by the wide range of accessories to meet any production requirement

Dosicream works in three modes: manual, automatic and sequential & 9 memory programs

Different selectable modes and adjustment of the dosing time, drop-stop and the pause time, allow the dosing filling machine to adapt optimally to all production requirements
